To 2020 Entrants

For those of you travelling through St Maarten, we include an excerpt from A March 6 update from Sint Maarten's Prime Minister "all 'passengers and crew members' traveling to St. Maarten who have been in the last 14 days visiting the cities and or countries of China (People's Rep.), Hong Kong, Iran, Italy, Japan, South Korea and Singapore, are not allowed to transit or enter Sint Maarten".

We are pleased to report no changes to the situation in St Barths as it pertains to the coronavirus. There have been no additional confirmed cases on St Barths since the one reported over a week ago. The French government has not implemented any travel restrictions.
